

L0101: FOUNDATIONS OF EMERGENCY MANAGEMENT

Course Description

This FEMA course is part of a Career Development Program in which participants learn an established set of emergency management competencies through a progressive training and education system that includes the entry-level National Emergency Management Basic Academy.

The following topics in emergency management are covered in the course: history, legal issues, intergovernmental and interagency context, influencing and organizing, social vulnerability issues, managing stress, collaboration, preparedness, and team-building, mitigation, response, prevention, and protection, ethical decision-making, recovery, technology, administration, and the future.

Course Objectives

At completion of this course, students will have a basic knowledge of the history of doctrine and authorities of emergency management, the role of the emergency manager, and an overview of all hazards.

Audience

This course is intended for newly appointed emergency managers from federal, state, local, tribal, and territorial emergency management agencies and prospective professionals transferring from other disciplines to emergency management.

Prerequisites

Participants must complete the following courses prior to enrollment:

- IS-100.a Introduction to the Incident Command System
- IS-200.b ICS for Single Resources and Initial Action Incidents
- IS-700.a National Incident Management System, An Introduction
- IS-800.b National Response Framework, An Introduction
- FEMA's Professional Development Series: IS-120.c, IS-230.b,
- IS-235.c, IS-240c, IS-241.c, IS-242.c, IS-244.b

Classes may be taken at <http://training.fema.gov>.

Course Completion

Students who participate in the class & pass the final exam with a score of 75% or higher will receive a completion certificate from the Emergency Management Institute (EMI).
