an applicant must be a nonprofit U.S. agricultural trade organization, a nonprofit state regional trade group, a U.S. agricultural cooperative, or a state government agency.

Cost Share Notes: The amount of cost share will be specified in the approval letter.

To participate in the MAP, an applicant must agree to contribute resources towards its proposed promotional activities. The MAP is intended to supplement, not supplant, the efforts of the U.S. private sector. In the case of generic promotion, the contribution must be at least 10 percent of the total amount in goods, services, and/or cash reimbursed by FAS for all approved generic promotion activities. In the case of branded promotion, the contribution must be at least 50 percent of the total amount reimbursed by CCC for all approved branded activities.

The amount of cost share will be specified in the approval letter. Promised contributions may be specified in dollars or as a percentage of the amount reimbursed by CCC. If the required promised contribution is not met, the applicant is required to either return to CCC the necessary amount of funds reimbursed by CCC to increase its actual cost share percentage to the required level or pay to CCC, in dollars, the difference between the amount actually contributed and the amount of funds necessary to increase its actual cost share percentage to the required level. Such payment must be made within six months after the end of the MAP program year.

The degree of commitment of an applicant to the promotional strategies contained in its application, as represented by the cost-share contributions specified in its application, is considered by FAS when determining which applications will be approved for funding. Cost-share may be actual cash invested or in-kind contributions, such as compensation paid to professional staff time spent on the design and

implementation of generic or brand promotion activities. The MAP regulations in Section 1485.16 provide a detailed list and discussion of eligible and ineligible cost-share contributions.

FEMA: Public Assistance (Category B)

Funding not identified

Dept/Agency/Org: (USDHS) Department of Homeland Security (FEMA specific) - Public Assistance

Description: Under the COVID-19 Emergency, FEMA may provide assistance for emergency protective measures to tribal entities. Emergency Protective Measures eliminate or lessen immediate threats to lives, public health or safety.

Website: <https://www.fema.gov/news-release/2020/03/19/coronavirus-covid-19-pandemic-eligible-emergency-protective-measures>

Eligibility: Local, Public, Public/Indian Housing Authorities, State, Territory, Tribe **Notes:** Under the COVID-19 Emergency Declaration described above, FEMA may provide assistance for emergency protective measures including, but not limited to, the following, if not funded by the HHS/CDC or other federal agency. While some activities listed may be eligible for funding through HHS/CDC, final reimbursement determinations will be coordinated by HHS and FEMA. FEMA will not duplicate any assistance provided by HHS/CDC: Management, control and reduction of immediate threats to public health and safety, Emergency medical care; Medical sheltering

Food banks are not eligible for direct reimbursement by FEMA; however, state, local, tribal, and territorial (SLTT) governments may seek reimbursement from FEMA by: 1. Entering into formal agreements or contracts with food banks to provide the necessary food commodities; 2. Demonstrating that the work and costs incurred were reasonable and necessary in order to respond to the COVID-19 public health emergency. While FEMA will not duplicate assistance provided by other federal agencies, this activity is eligible for reimbursement as an emergency protective measure for 30 days despite the 7

availability of funds from other agencies—due to extraordinary circumstances of the COVID-19 public health emergency.

Indicators of negative food security impacts, which may demonstrate the need to fund the distribution of food in response to the COVID-19 pandemic, include: Documented decreases of in-kind donations to food banks; Reduced mobility of people in need due to government-imposed restrictions; Marked increase or atypical demand for feeding resources; or disruptions to the typical food supply chain in the jurisdiction.

Recipients should work through their FEMA regional point of contacts to make sure that the following

forms/paperwork have been filled out before applying for a grant: FEMA State/Tribal/Territorial Agreements, Signed Federal Grant Applications (SF-424), Updated Recipient Public Assistance (PA) Administrative Plans.

NSF - Plasma Physics - FY2020 **Deadline: Nov-16-2020**

Funding not identified

Dept/Agency/Org: Major Independent Agencies - National Science Foundation

Description: The Plasma Physics program supports research that can be categorized by several broad, sometimes overlapping, sub-areas of the discipline, including: magnetized plasmas in the laboratory, space, and astrophysical environments; high energy density plasmas; low temperature plasmas; dusty, ultra-cold, and otherwise strongly coupled plasmas; non-neutral plasmas; and intense field-matter interaction in plasmas. The focus of the Plasma Physics program is to generate an understanding of the fundamental principles governing the physical behavior of a plasma via collective interactions of large ensembles of free charged particles, as well as to improve the basic understanding of the plasma state as needed for other areas of science and engineering.

Some Plasma Physics-related activities are supported primarily by other NSF Programs. Proposals focused on the physical properties of individual or a small number of atoms or molecules, or optical physics, should be directed to the Atomic, Molecular, and Optical Physics Program within the Division of Physics. Proposals focused on understanding astrophysical systems should be directed to the

Division of Astronomical Sciences. Proposals focused on understanding the Geospace environment or the Sun-Earth interactions should be directed to an appropriate program within the Geospace Section of the Division of Atmospheric and Geospace Sciences. Proposals focused on development of new materials using plasmas should be directed to an appropriate program in the Division of Materials Research. Proposals focused on plasma-assisted manufacturing should be directed to the Division of Civil, Mechanical and Manufacturing Innovation. Finally, proposals focused on use of plasmas for environmental and reaction engineering, environmental sustainability, combustion systems, or engineering of biomedical systems should be directed to an appropriate program within the Division of Chemical, Bioengineering, Environmental and Transport systems.

DOL/ETA - Senior Community Service Employment Program (SCSEP) National Grants for Program Year (PY) 2020 Deadline: Jun-15-2020

Total Funding: \$312,000,000

Dept/Agency/Org: (USDOL) Department of Labor - Employment and Training Administration

Description: To provide unemployed, low-income persons, who are age 55 or older (and not job ready), with training at community service employment assignments in public and non-profit organizations so that they can gain work experience and on-the-job training.

Website: <https://www.grants.gov/web/grants/view-opportunity.html?oppld=326677>

Eligibility: Federal, Nonprofit, Public, Tribe **Notes:** The following organizations are eligible to apply: • Nonprofit Organization • Federal Public Agencies • Tribal Organizations
The eligible applicant agency or organization must demonstrate its ability to administer a multi-State program, as specified in Section IV.B.4.a (5). We reserve the right to award a grant to only one applicant per State, and to award an applicant funds to serve only one State. This does not, however, permit an applicant to apply to provide services in only one State.

Cost Share Notes: This program requires cost sharing (20 CFR §641.809). Such funds may be in the form of cash or in-kind contributions or a combination of the two and must be, at a minimum, equal to ten percent of the total cost of activities carried out under a SCSEP grant. Any resources contributed to the project in addition to cost share funds will be considered leveraged resources. Section IV.B.2 provides more information on leveraged resources. Applicants must identify intended sources of this non-Federal share in the Budget Narrative. Grantees will be financially responsible if they fail to meet the cost-share requirement and compliance with that requirement will be determined by examining expenditures of SCSEP funds in accordance with 20 CFR 641.876. The cost share requirement must be met at the time that all SCSEP funds have been expended by the grantee or by the period of performance end date. Some applicants may qualify for an exemption from the non-Federal share requirements. Please see Section IV.B.4.a)(6) for more information.

DOL/ETA - Workforce Opportunity for Rural Communities (WORC) - FY2020 **[Appalachian and Delta Regions] Deadline: Jul-29-2020**

Total Funding: \$29,200,000

Dept/Agency/Org: (USDOL) Department of Labor - Employment and Training Administration

Description: This Announcement solicits applications for the WORC Initiative for grants serving the Appalachian and Delta regions. The purpose of this program is to demonstrate the alignment of regionally driven, comprehensive approaches to addressing economic distress and the necessary workforce development activities to ensure a workforce capable of succeeding in current and future job opportunities. Successful long-term economic growth strategies build upon bottom-up, community-led plans that promote economic resilience and maximize regional strengths. The WORC Initiative grants take a long-term view toward assisting eligible communities in diversifying their economies by investing in local strategies developed by regional partners. This long-term view also acknowledges the impact of the opioid crisis and the significant challenges it presents to a community's workforce. To address these challenges, ETA encourages applicants to include within their applications strategies to address the employment and training needs of individuals affected by substance use disorder in their communities.

Website: <https://www.grants.gov/web/grants/view-opportunity.html?oppld=326678>

Eligibility: Academic Institution, Local, Nonprofit, Public/Private Institutions of Higher Education, State, Tribe **Notes:** The following organizations are eligible to apply:

- State Government

- Nonprofit Organization without IRS 501(c)(3) Status
- Private Institution of Higher Education
- Hispanic-serving Institution
- Historically Black Colleges and Universities (HBCUs)
- Tribally Controlled Colleges and Universities (TCCUs)

Among eligible applicants listed above, the applicant agency or organization must also demonstrate collaboration or engagement with at least two employer/industry partners and should partner with other organizations serving the economic, workforce development, and other needs of the community the application proposes to serve. These other organizations could also include local employers, as well as state or local workforce development boards, community- and faith-based organizations or academic institutions and other organizations providing job training, which can include local school systems, universities, and community colleges, among others. Such partnerships expand project capacity to reach and serve grant participants by leveraging and building upon existing community efforts, resources, and networks. Partnerships also help to sustain the delivery of effective career and training services to address workforce needs.

HHS/NIH - Biology of Bladder Cancer **Deadline: May-07-2022**

Funding not identified

Dept/Agency/Org: (USHHS) Department of Health and Human Services - National Institutes of Health

Description: This Funding Opportunity Announcement (FOA) solicits applications investigating the biology and underlying mechanisms of bladder cancer. Bladder cancer is a significant health problem both in the United States and globally. Because of the high incidence and frequent tumor recurrence, bladder cancer exacts an outsized medical burden. While recent progress has been made in the molecular profiling of bladder cancers and identification of mutated genes, relatively little is known regarding the molecular mechanisms driving initiation, progression, and malignancy of bladder cancer. Furthermore, our understanding of biological processes of the normal bladder at the molecular, cell and organ levels is limited. Fundamental knowledge of how molecular and cellular functions of the bladder are altered in cancer will aid our understanding of bladder cancer biology and interventions. Applications that involve multidisciplinary teams and use clinical specimens or investigate both normal and cancer processes are encouraged.

HUD - 2020 Appropriation for Community Development Block Grant-Disaster Recovery Grant Program (14.218 & 14.228)

Funding not identified

Dept/Agency/Org: (USHUD) Department of Housing and Urban Development - Community Planning and Development

Description: When the President declares a major disaster, Congress may appropriate funds to the Department of Housing and Urban Development (HUD) when there are significant unmet needs for long-term recovery. Qualifying major disasters are those declared by the President pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974. The special appropriation provides funds to the most impacted and distressed areas for:

- * Disaster Relief.
- * Long Term-Recovery.
- * Restoration of Infrastructure.
- * Housing.
- * Economic Revitalization.
- * Mitigation

While CDBG-DR funding is a valuable resource for long-term recovery and mitigation in the wake of major disasters, HUD expects that grantees will take steps to set in place substantial State and local governmental policies to enhance the impact of HUD-funded investments and limit damage from future disasters.

CDBG-DR funding supplements other Federal recovery assistance programs administered by the Federal Emergency Management Agency (FEMA), the Small Business Administration (SBA), and the United States Army Corps of Engineers (USACE). CDBG-DR funds cannot duplicate funding available from federal, state or local governments, private and nonprofit organizations, insurance proceeds, or any other source of assistance.

CDBG-DR funds may also be used to match other federal resources and can also be used in combination with the Department of Health and Human Services(HHS) Social Services Block Grants (SSBGs).

Before cities, counties and states can begin utilizing CDBG-DR funds (expenditure) several steps must be completed to include creation of a disaster recovery web page, Action Plan approval, applicable environmental reviews and the execution of a grant agreement with HUD.

Citizen participation is both encouraged and required throughout the CDBG-DR grant process. Each grantee's Action Plan must include a Citizen Participation Plan which describes how the public will be informed and engaged throughout the grant's lifecycle.

The combined amount of \$3,831,428,000 in CDBG-DR funds is allocated by this notice for the purpose of assisting in long-term recovery from major disasters that occurred in 2017, 2018, and 2019.

Website: <https://www.hudexchange.info/programs/cdbg-dr/>

Eligibility: Local, State, Territory, Tribe **Notes:** Grants shall be awarded directly to a State, unit of general local government, or Indian tribe at the discretion of the Secretary. These entities become the

grantees. HUD will notify eligible States, cities and counties if they are eligible to receive CDBG-DR grants.

Those who receive grant money as subrecipients include state agencies, nonprofit organizations, economic development agencies, citizens, and businesses.

Individuals nor communities can apply for funds. Members of the public impacted by a disaster cannot receive CDBG-DR funds directly from HUD.
